To: AXA POWER & AIRPO-TECH

Subject: AXA 400HZ POWER UNITS

AXA POWER supplied a number of 400hz electrical power units through their local agent AIRPO-TECH to the Emirates New Engineering maintenance facility at Dubai International Airport in 2006.

These units consists of :

- Qty 24 - 90KVA units for Hangar to aircraft supplies
- Qty 2 - 45KVA units for workshops activities
- Qty 5 - 180 KVA mobile units for aircraft supplies at maintenance external parking stands.

The performance of all units has been excellent as has the maintenance / service support, and this is most appreciated.

Best Regards,

BOB LUNN
Vice President – Engineering Facilities
