

SIMPLY SMARTER GROUND SUPPORT

Ground power units
Pre-conditioned air units
Cables and hoses

It's all about connections

ENGINEERING IS IN OUR BLOOD

ITW GSE combines customer-back innovation with an in-depth knowledge of the GSE industry to develop and deliver solutions that are tailored to your needs. We strive to make best-in-class even better. As a result, you get cleaner and more reliable ground support systems that improve the working environment for your staff and increase the efficiency of your operations.

We invented the ITW GSE Plug & Play system that provides unique voltage at the aircraft plug. We also designed the market's only modular PCA with easy-swap cooling modules, and the 2400 Power Coil, which combines a converter and a cable handling system in a self-contained unit.

We provide experience you can count on.

OUR VISION We supply the aviation industry with the **CLEANEST, MOST RELIABLE** and **MOST COST-EFFICIENT** GSE systems available

CLEAN

Cleaner and quieter GSE - for the benefit of your staff and the environment

RELIABLE

Tried and tested in all environments - from the Arctic to the desert

COST-EFFICIENT

Smart and innovative products - to reduce your total cost of ownership

SMOOTH OPERATIONS

- through the ITW GSE way of thinking

To ensure smooth operations 24/7, all ITW GSE products are built to a common design platform and controlled via the easy-to-use ITW GSE icon-based operator interface. This reduces human error during operation and simplifies user training.

The modular design of our units also ensures you benefit from quick service and repair, while spare part commonality reduces your stock requirements. ITW GSE has brought more innovative products to the market than any other GSE supplier.

QUICK SWAP

All ITW GSE units are built from modular components that can be swapped quickly and easily

PLUG & PLAY

UNIQUE VOLTAGE QUALITY

PLUG & PLAY

The Plug & Play system ensures unique output voltage at the aircraft plug

EASY TO USE

COMMON DESIGN PLATFORM

EASY TO USE

All ITW GSE products are controlled via the easy-to-use operator interface

PATENTS PENDING

We invest in innovation and technology to provide you with premium products and service

"Innovation has always been at the core of ITW"
- Scott Santi, Chairman of the ITW Board of Directors

ITW GSE brought the first battery operated eGPU to the market.

We propose a complete battery family that covers all aircraft needs.

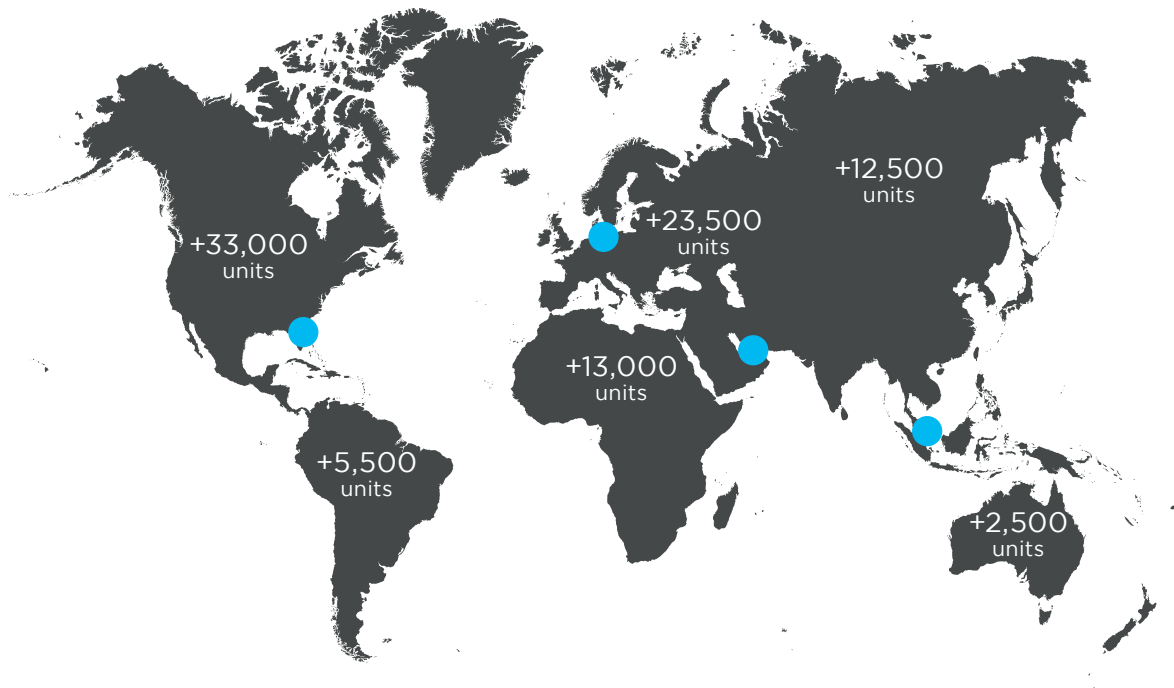

The 7400 eGPU facilitates the transition towards greener airports and is the result of our strong culture of innovation.

EXPERIENCE YOU CAN COUNT ON

MORE THAN 90,000 UNITS DELIVERED TO CUSTOMERS IN OVER 100 COUNTRIES

ITW GSE is a leading supplier of ground power units, pre-conditioned air units, cables and hoses, with roots stretching back nearly 100 years. If you are in aviation and haven't yet done business with ITW GSE, there are some very good reasons for getting to know us.

As an ITW company (Illinois Tool Works Inc.), we have a unique way of doing business, and financial strength you can depend on. At our core is the talent and dedication of our people. We focus on what we do best, and we strive to do it better than anyone else. We share knowledge, and we learn from our customers.

We are motivated by a strong sense of belonging, and by the pride we take in serving customers – every day. We provide premium GSE solutions that are tailored to your needs, from single-gate to complete airport installations.

Beside living up to industry product standards, ITW GSE is ISO 9001 and 14001 certified. Our strategic commitment to actively promote a clean and safe environment throughout all areas of our business aligns perfectly well with ISO 14001. ITW GSE products are proven to perform.
